

Information Sheet

- valid till 31.12.2025 -

Transport of UN 3496 Nickel Metal Hydride Batteries according to IMDG-Code Amendment 41-22

The transport of batteries of this type is not subject to any dangerous goods regulations in sea transport according to IMDG Code **WHEN the batteries**

- are installed in equipment or
- packed with equipment or
- if it is only button cells.

This is regulated in Special Provision 963 of Section 3.3 of the IMDG Code.

When these batteries are shipped alone then there are regulations to be followed and there are own checklists for that case.

Attention:

In air transport for the transport of Nickel Metal Hydride Batteries there are regulations to be followed.

This information is presented to you free of charge.
